1 Q. I'm sorry.

- 2 A. FOMC. That was the way they had always done
- 3 it.
- 4 Q. Did anyone ever consider lockdowns for the
- 5 refunding conferences?
- 6 MS. WILLIAMS: Objection.
- 7 BY MR. THEODOROU:
- 8 Q. Before October 31st, 2001?
- 9 A. Not to my knowledge.
- 10 Q. Did you ever have a discussion with anybody
- 11 at Treasury about using a lockdown procedure for
- 12 refunding conferences?
- 13 A. No.
- 14 Q. Did anyone at Treasury ever suggest that the
- 15 lockdown should be used for refunding conferences?
- 16 A. No.

1

- 17 MS. WILLIAMS: Objection.
- 18 THE WITNESS: Sorry.
- 19 A. No, never. Again, I think it would be -- my
- 20 view is that it would have been a solution in
- 21 search of a problem.
- 22 BY MR. THEODOROU:

Page 63

- Q. And why is that?
- A. Because I had never seen any event of areporter willfully breaking an embargo.
- 4 MR. THEODOROU: Why don't we take a
- 5 five-minute break.
- 6 THE VIDEOGRAPHER: This concludes tape one
- 7 in the deposition of Tony Fratto. Off the record
- 8 at 11:41:30.,
- 9 (Recess taken.)
- 10 THE VIDEOGRAPHER: This begins tape two in
- 11 the deposition of Tony Fratto. On the record at
- 12 11:48:50.,
- BY MR. THEODOROU:
- 14 Q. Mr. Fratto, turning your attention to
- 15 October 31st, 2001, after your discussions with
- 16 these reporters, what was your understanding as of
- 17 October 31st of Treasury's policy on the use of
- 18 embargoes?
- 19 MS. WILLIAMS: Objection.
- 20 A. That we had a -- in terms of, you know,
- 21 whether it was a policy, my view is that we had a
- 22 policy of setting embargoes, that it was a

- 1 traditional thing. And, as I learned more about
- 2 it, that it was a useful and appropriate way to
- 3 release information at Treasury.
- 4 BY MR. THEODOROU:
- 5 Q. What exactly did an embargo prevent a person
- 6 from doing?
- 7 A. It prevented a member of the news media from
- 8 releasing the information that they received,
- 9 disseminating that information to the general
- 10 public.
- 11 Q. Before a particular time?
- 12 A. Before a particular time. That's right.
- Q. Did it prevent them from disclosing the
- 14 information to anyone?
- 15 MS. WILLIAMS: Objection.
- 16 A. It -- no. I'd say, my view is the general
- 17 is that it prevented them from just releasing
- 18 the information to the general public. My view,
- 19 and I think it was the common understanding among
- 20 the reporters in the Treasury pressroom, that it
- 21 was perfectly appropriate to discuss information
- 22 with members of the news organization, like an

Page 65

- 1 editor.
- 2 Q. Did you define for them who at their press
- 3 organizations they could discuss the information
- 4 with?
- 5 A. No. Not specifically.
- 6 Q. Now, a press person who received the
- 7 information at a press conference could discuss
- 8 that information with another Treasury employee?
- 9 MS. WILLIAMS: Objection.
- 10 A. They could discuss that information with a
- 11 member of the Office of Public Affairs.
- 12 BY MR. THEODOROU:
- 13 Q. How about another, an employee who did not
- 14 work at the Office of Public Affairs?
- 15 A. Reporters are not -- let me put it this way.
- 16 Treasury employees outside the Office of Public
- 17 Affairs are not permitted to talk to reporters
- 18 except by authority granted to them and in the
- 19 presence of a member of the Office of Public
- 20 Affairs. That's been a standard policy at Treasury
- 21 for a long time, since the beginning.
- 22 Q. Now, before October 31st, 2001, did you

- 1 speak, of breaking an embargo. There's absolutely
- 2 no evidence of it. And so I don't -- didn't then
- 3 and I certainly don't today see the need at every
- 4 press event where we employ an embargo, which is a
- 5 daily occurrence, to cite the potential penalties
- 6 if the embargo is broken.
- 7 BY MR. THEODOROU:
- 8 Q. Did Treasury obtain the consent from
- 9 everybody attending the conference that they would
- 10 abide by the embargo?
- 11 A. No.
- 12 Q. Now, directing your attention to October
- 13 31st, 2001. You attended that refunding
- 14 conference. Correct?
- 15 A. Yes.
- 16 Q. Now, did Elizabeth Holahan ask the attendees
- 17 at that press conference whether they agreed to
- 18 honor the 10:00 a.m. embargo that day?
- 19 A. No. She simply announced the embargo time
- 20 twice.
- 21 Q. Did she require the attendees to sign a form
- 22 stating that or any document that they would honor

- 1 MS. WILLIAMS: Objection.
 - 2 A. Willfully violated. Before October 31st?
 - 3 No, the only event that I really recall was
 - 4 subsequent to October 31st.
 - 5 BY MR. THEODOROU:
 - 6 Q. Apart from willfully, do you remember --
 - 7 prior to October 31st, 2001, do you remember any
 - 8 instance of a premature disclosure of information
 - 9 from a press conference at Treasury?
- 10 MS. WILLIAMS: Objection.
- 11 A. An event was brought to my attention, but I
- 12 wasn't -- I didn't have first-hand experience with
- 13 it.
- 14 BY MR. THEODOROU:
- Q. What, so there was an event brought to your
- 16 attention where an embargo had been violated?
- 17 MS. WILLIAMS: Objection.
- 18 A. I couldn't make a judgment whether the
- 19 embargo was violated. I was asked -- I think I was
- 20 asked yesterday about an event involving our deputy
- 21 secretary Ken Dam, and in your letter specific date
- 22 referring to October 22nd, it was mentioned. I

Page 111

Page 113

- 1 an embargo?
- 2 A. No. We relied on their ethical
- 3 responsibilities.
- 4 Q. So that Treasury officials assumed that the
- 5 attendees would honor whatever embargo time was
- 6 announced. Correct?
- 7 A. Yes.
- 8 MS. WILLIAMS: Objection.
- 9 BY MR. THEODOROU:
- Q. So as of October 31st, 2001, reporters were
- 11 governed by an honor system not to release
- 12 information before the embargo time expired?
- 13 MS. WILLIAMS: Objection.
- 14 A. Is that an honor system? I don't know.
- 15 BY MR. THEODOROU:
- 16 Q. But they were self --
- 17 A. They were self-enforcing.
- 18 Q. Self-enforcing.
- 19 A. Yeah.
- 20 Q. Now, you testified you were not aware of any
- 21 instance before October 31st in which an embargo at
- 22 Treasury was violated?

- 1 haven't had any first-hand knowledge or experience
- 2 with that. If I have, I'm just not aware. It
- 3 wasn't an issue area that was in my jurisdiction at
- 4 that time.
- 5 Q. Before the October 31st conference, did the
- 6 issue regarding Mr. Dam's press conference, was
- 7 that brought to your attention?
- 8 A. Before October 31st?
- 9 Q. Before October 31st, 2001.
- 10 A. I have no recollection of that.
- 11 Q. I will see if it refreshes your
- 12 recollection.
- 13 A. Okay.
- 14 Q. If it does, it doesn't.
- MR. THEODOROU: Could we go off the record
- 16 just a second?
- 17 THE VIDEOGRAPHER: Off the record at
- 18 12:46:43.,
- 19 (Recess taken.)
- 20 THE VIDEOGRAPHER: On the record at
- 21 1:25:522.,
- 22 BY MR. THEODOROU:

Page 130

- 1 was obviously a unique announcement, and I wanted
- 2 to make sure, A, that they had enough time to, you
- 3 know, ask questions at the press conference,
- 4 thoroughly consume the news that they were getting,
- 5 and write thoughtful -- write thoughtful stories.
- 6 And, if they had any questions -- you know, it's
- 7 not unusual for after a press conference or the
- 8 release of information that the reporters, they get
- 9 down to their desks, they get down to their desk
- 10 and get into writing and they realize they have got
- 11 two or three questions on the news you just gave
- 12 them.
- In this case, for example, they might ask
- 14 was it -- I mean, it wasn't the case, but, you
- 15 know, had 30-year ever been discontinued before?
- 16 They would want a little historical data to add
- 17 into their stories, things like that. So I wanted
- 18 to make sure going into this that they had enough
- 19 time on this important piece of news to write good
- 20 accurate stories, and so I wanted to make sure they
- 21 got that amount of time.
- Q. And when did you decide it was going to be

- 1 news here. I don't think we should try to be --
- 2 you know, let's not try to break ground everywhere.
- 3 You know, the time to try new things with
- 4 established events like a quarterly press
- 5 conference was not when you have a major piece of
- 6 news because you are just increasing the risk that
- 7 something could go wrong. And I never had a whole
- 8 lot of faith in the ability of Treasury's Internet
- 9 infrastructure to carry off a web cast in a timely
- 10 way. So I thought it was a bad idea and argued
- 11 against it. And I thought we should actually go,
- 12 you know, far more conservative to the other, on
- 13 the other extreme, which was what I in the end
- 14 advocated and what we agreed to, which was to set a
- 15 hard and fast time for lifting the embargo for all
- 16 the reasons I just said earlier.
- 17 Q. When you had this discussion with Mr.
- 18 Fisher, how did having a live web cast increase the
- 19 chances of something going wrong?
- 20 A. Well, I mean, most obviously, you know, we
- 21 have a history at Treasury of servers going down.
- 22 You know? I mean, it wasn't a particularly

Page 131

- 1 at 10:00 a.m.?
- 2 A. It was late the previous week.
- 3 Q. Did you discuss the issue of setting the
- 4 time with anybody?
- 5 A. Yes. I discussed it with -- discussed it
- 6 with Betsy. I discussed it with -- I certainly
- 7 discussed it with Peter Fisher. And there were
- 8 certainly others in the room when we had that
- 9 discussion, most likely Brian Roseborough and/or
- 10 Tim Bitsberger or Jeff Luther, maybe Paul Malvey.
- 11 I don't recall who else was in the room, but I know
- 12 there were others in the room and that's the likely
- 13 group that would have been there.
- 14 Q. Was there one discussion with the group?
- 15 A. There was at least one discussion. There
- 16 may have been more. I don't remember specifically.
- 17 Q. All right. And what was said in that
- 18 discussion?
- 19 A. Well, Peter -- Peter first had the idea that
- 20 he wanted to have the press conference be live web
- 21 cast. And I objected to that. I thought that, you
- 22 know, we already have a fairly sizeable piece of

- 1 reliable Internet infrastructure at Treasury, and I
- 2 didn't have faith that we'd get to 10 minutes
- 3 before the press conference and someone from the IT
- 4 office would call up and say, you know, we can't
- 5 web cast it, or there's going to be a delay, or the
- 6 server went down. Something like that. And I
- 7 wanted us to be, you know, tried and true,
- 8 reliable, give the news to actual human beings who
- 9 will get the news out the normal, you know, the
- 10 normal way. The only change was to give them, you
- 11 know, more time in a hard set embargo.
- 12 Q. And your concern was that those who attended
- 13 the conference would have a leg up on others who
- 14 may be watching it in the general public if there
- 15 was something wrong with the web cast?
- 16 MS. WILLIAMS: Objection.
- 17 A. No.
- 18 BY MR. THEODOROU:
- 19 Q. What does the Internet have to do with it,
- 20 the Internet being down, if you are having a live
- 21 press conference on TV?
- 22 A. He was asking about web casting it, not

Page 7 of 9

- doing a live --1.
- Q. Okay. 2
- A. And that would have been an additional 3
- problem. He said, well, why -- he said, well,
- can't we go, can't we just go live? And I said --
- and in that case it would be broadcast on TV. And
- I said, "Peter, I can't guarantee that -- " you
- know, the only usual suspects on the TV side that
- would consider coming to cover a quarterly 9
- refunding announcement, you know, would have been
- Bloomberg, CNBC, you know, maybe Reuters. I would 11
- 12 have to ask them, do you plan on going live? And
- they would say, is he going to make news? And I'd 13
- say, I can't tell you. And then you get into a 14
- very tricky discussion that I definitely don't want 15
- to have. I don't want to tip TV guys that we might
- be making special news at a quarterly refunding
- 18 announcement, so I can't talk them into covering
- events. So I couldn't guarantee to Peter that it
- would be covered live. The only way you could 20
- guarantee that it would be broadcast live would be
- in the form of a web cast, but I didn't have good 22

- 1 you find much news there.
- Q. And why did Mr. Fisher want to go live?
- A. Peter had been looking at -- Peter comes 3
- from, had been up at the New York Fed and had a
- high degree of interest in trying to find ways to
- increase efficiency in markets, and one of the ways
- that you increase efficiency in markets is by
- reducing the time span in terms of information and
- transmission of information. So, for example, on
- the auction results, there was, there had been, you 10
- 11 know, time lags. You have to think about the size
- of these markets and the margins that traders are
- dealing with. You know, you would get auction
- results, and sometimes it would take four or five
- 15 minutes to get from the closing of an auction to
- get the results published. And Peter worked to
- find ways to squeeze that down to one to two 17
- minutes. He would like to make it instantaneous.
- So any way that you can find to get instantaneous
- 20 news to the market in the most transparent way
- 21 possible, that's something that Peter had a high
- 22 degree of interest in and just felt it would

Page 135

Page 137

- confidence in the reliability of web casting. 1
- Q. Because of the Treasury's Internet 2
- facilities? 3
- A. Yeah. 4
- THE VIDEOGRAPHER: This concludes tape two 5
- in the deposition of Tony Fratto. Off the record 6
- 7 at 1:48:53.,
- (Brief recess taken.) 8
- 9 THE VIDEOGRAPHER: This begins tape three in
- the deposition of Tony Fratto. On the record at 10
- 11 1:49:30.,
- BY MR. THEODOROU: 12
- Q. Why was October 31st different than the May 13
- and August press conference, quarterly refunding
- press conferences where you had to set a time, as 15
- opposed to polling the reporters? 16
- A. The news, you know, that we were 17
- discontinuing the 30-year bond. That it was 18
- definitely -- you know, I knew that. I knew that
- it was going to be bigger news than, you know --20
- you know, a quarterly refunding press conference is
- 22 a relatively sleepy affair. It's not usual that

- 1 improve market efficiency.
- Q. Did he have any concern that there would be 2
- a release, a premature release of the information
- discussed at the press conference before the 4
- 5 embargo?
- MS. WILLIAMS: Objection. 6
- 7 A. I don't recall him expressing that to me.
- 8 BY MR. THEODOROU:
- Q. And what was his response to your proposal? 9
- 10 A. In the end he agreed. I mean, he made this
- 11 philosophy of his, you know -- I was well aware, I
- spent a lot of time with Peter and I knew that 12
- that's what his reasoning was. But I just told him 13
- that, in my judgment, it wasn't worth the risk. It
- just wasn't -- you know, we don't -- if we want to 15
- do that, let's do it, but let's do it over some
- period of time. Let's do it over the next three 17
- quarterly refundings, you know, where we -- you 18
- know, at one quarterly refunding we say we are
- considering doing a live web cast. You know? Four
- months later at the next quarterly refunding we
- say, at the next quarterly refunding we will web

Page 138

- 1 cast. And then on the third quarterly refunding,
- 2 we actually web cast. And then that way, number
- 3 one, it gives us a lot of time to make sure that we
- 4 have a rigorous infrastructure to be able to
- 5 reliably web cast; and, number two, you tell the
- 6 markets what to expect and they have a lot of time
- 7 to know how, you know, how to expect news to come
- 8 to them. And, you know, so I just wanted us to be
- 9 cautious about doing big changes, and I just did
- 10 not think that it was appropriate to try to do a
- 11 major change when we were also making major news.
- 12 It just wasn't worth the risk.
- 13 Q. Was your concern -- well, given your
- 14 concerns about the Internet capability at Treasury,
- 15 was your concern that something could have gone
- 16 wrong with the web cast, and at the same time you
- 17 were releasing information to reporters who would
- 18 then have advanced information compared to the
- 19 general public?
- 20 A. Reporters always have advanced information
- 21 ahead of the general public. It's their job; we
- 22 rely on them to disseminate news to the general

- 1 error. You know? And that human error is going to
- 2 happen.
- 3 BY MR. THEODOROU:
- 4 Q. But I guess my question is, my question is,
- 5 you had concerns about their ability that -- their
- 6 Internet capability and, therefore, they might not
- 7 be able to web cast at the same time. So he would
- 8 be doing a live press conference to a group of
- 9 reporters and people attending the conference. And
- 10 if the web cast couldn't go out, so what? What
- 11 difference would that make?
- 12 MS. WILLIAMS: Objection.
- 13 A. We would have raised expectations that you
- 14 will find the news on the web cast, and then they
- 15 wouldn't see it. That was the risk.
- 16 BY MS. THEODOROU:
- 17 Q. So it wasn't an issue of market sensitive
- 18 information getting out ahead?
- 19 A. No.
- 20 Q. Okay.
- 21 A. No. Not at all.
- 22 Q. Did Mr. Fisher, was Mr. Fisher -- how many

Page 139

- 1 public. So I didn't have a concern about that. In
- 2 fact, I relied -- when I say, I really mean this.
- 3 I rely on the Treasury press corps to disseminate
- 4 news to the markets and the general public. I have
- 5 much more confidence in that part of dissemination
- 6 than I do on the web page dissemination. Everyone
- 7 who has a Web site that they deal with knows that,
- 8 you know, at the most unpredictable times you have
- 9 problems with the web page. So I'm not ready and I
- 10 certainly wasn't ready in the year 2001, I'm not
- 11 even sure I'm ready in the year 2006 to say I can
- 12 put full faith and confidence in Internet
- 13 infrastructure to get that information out on a
- 14 precise time. We're not there yet.
- 15 Q. Especially after what happened in October

- 17 MS. WILLIAMS: Objection.
- 18 A. No. I mean, that had nothing to do with it.
- 19 That was human error, that wasn't even
- 20 infrastructure error. There is lots of
- 21 infrastructure error. I have seen infrastructure
- 22 error with our web platform. But that was human

- 3 A. Just, I mean, no more than two.
- 4 Q. Was Mr. Fisher concerned about the danger

- 5 that that information might leak out before 10:00,
- 6 a.m.?
- 7 MS. WILLIAMS: Objection.
- 8 A. You would have to ask him. If he was, he
- 9 didn't express it to me.
- 10 BY MR. THEODOROU:
- 11 Q. So Mr. Fisher did not express a concern
- 12 about the leaking out of information?
- 13 A. Not that I recall.
- 14 Q. If you could go to Exhibit 1, Mr. Fratto.
- 15 A. Okay.
- 16 Q. Page 2, the second paragraph. Do you see
- 17 that?
- 18 A. Yes.
- 19 Q. Now, when did you first learn about the
- 20 decision to suspend the 30-year bond?
- 21 A. That sounds about right. I recall it being
- 22 on Thursday, the 26th.

- 1 until 10:00 a.m. on that date.
- 2 Q. Were any steps taken to advise attendees who
- 3 were not members of the press that the news embargo
- 4 also applied to them when they attended these
- 5 conferences?
- 6 A. I wasn't aware --
- 7 MS. WILLIAMS: Objection.
- 8 A. I wasn't aware of anyone in attendance --
- 9 other than some Treasury policy staff, I wasn't
- 10 aware of others who were not members of the media
- 11 who were in attendance.
- 12 BY MR. THEODOROU:
- Q. So before the October 31st, 2001 conference,
- 14 you were not aware of anyone other than media
- 15 attending the quarterly refunding conferences?
- 16 A. That's right.
- 17 MS. WILLIAMS: Objection.
- 18 BY MR. THEODOROU:
- 19 Q. Did you take any steps before October 31 to
- 20 determine whether anyone outside of the media
- 21 attended quarterly refunding press conferences?
- 22 A. No.

Page 155

- 1 Q. Do you know if anybody at Treasury ever took
- 2 any steps before October 31st, 2001 to determine
- 3 whether nonmedia persons attended the quarterly
- 4 refunding press conferences?
- 5 A. I don't know if they did.
- 6 Q. Now, directing your attention again to
- 7 Exhibit 1.
- 8 Before we get there, who was allowed to
- 9 attend quarterly refunding press conferences before
- 10 October 31st, 2001?
- 11 A. There wasn't a policy on who was allowed to
- 12 attend. But I never had any expectations that
- 13 anybody -- that anyone except excepting members of
- 14 the news media and Treasury staff would attend.
- 15 Q. But there was no policy as to who could
- 16 attend?
- 17 A. Not that I'm aware of. I didn't have a
- 18 policy.
- 19 Q. Have you ever heard anybody talk about a
- 20 policy as to who could attend the quarterly
- 21 refunding press conferences --
- 22 A. No.

1 Q. -- before October 31st, 2001?

- 2 A. No.
- 3 Q. As of October 31st, 2001, do you know who at
- 4 Treasury was responsible for deciding who could
- 5 attend the quarterly refunding press conferences?
- 6 A. I'm sorry, could you say that again?
- 7 Q. As of October 31st, 2001, do you know who at
- 8 Treasury was responsible for deciding who could
- 9 attend press conferences, refunding press
- 10 conferences?
- 11 A. No. All I can say is the Office of Public
- 12 Affairs was responsible for inviting members of the
- 13 media and clearing them in for press conferences,
- 14 including quarterly refunding announcements.
- 15 Q. Do you know if there was a comprehensive
- 16 list of everyone who attended the October 31st,
- 17 2001 press conference?
- 18 A. No.
- 19 Q. Now, how did those individuals who were
- 20 attending the quarterly refunding press conferences
- 21 as of October 31st, 2001 get into the Treasury
- 22 Building on the morning of the press conference?

Page 15

- 1 A. Those individuals, meaning members of the --
- 2 are you make a distinction between members of the
- 3 media or nonmembers of the media?
- 4 Q. Anybody who was attending.
- 5 A. Well, for anyone to enter the Treasury
- 6 Building, they need to be cleared by Secret
- 7 Service. And unless they have a permanent badge,
- 8 they need to be -- a permanent Treasury badge, in
- 9 which they can't wouldn't have to be cleared in.
- 10 So if they were cleared in, they had to be escorted
- 11 to wherever they need to be in the building by a
- 12 Treasury official.
- 13 Q. And what room in the Treasury Building was
- 14 normally used for the quarterly refunding press
- 15 conferences?
- 16 A. The diplomatic reception room.
- 17 Q. And is there a reason why the diplomatic
- 18 reception room as opposed to another conference
- 19 room was used for that particular kind of
- 20 conference?
- 21 A. There is no other conference -- there was no
- 22 other conference room at the time. The cash room.

A. I -- as I had been talking to 5 I don't think there is anything in 5 the fact of regular and predictable auction Michelle Davis, I assume the secretary had б also. I didn't expect for him to talk to me 7 calendar that suggests a policy is best 7 about, in any detail about press office pursued which changes the auction, changes debt management policies the least. procedures. 9 Changes are being made all the time Q. Now, you mentioned to Ms. Williams 10 10 11 in increments and are then being announced as 11 that the market is constantly trying to clearly as one can to the market. So I would 12 anticipate what it is the Treasury is going see it rather differently than your question 13 to do at the Refunding Conferences, correct? 14 implied. A. Yes. 14 Q. And would it be also fair to say 15 Q. Do you recall there being criticism 15 16 that the announcement on October 31 just took 16 that it is a goal of the Treasury to make its announcement at those Refunding Conferences the market by surprise? 17 18 regular and predictable? 18 A. I recall some people saying it took them by surprise and other people saying they 19 MS. WILLIAMS: Objection. 19 A. The phrase "regular and anticipated it. 20 20 21 predictable" refers to the -- there is a term Q. But do you recall anyone saying in 21 substance that the Treasury did a bad job 22 used in Treasury debt management to convey 23 that auctions occur on regular and here because it failed to prepare the market 23 24 for this information in advance? 24 predictable dates. 25 Many sovereign borrowers change 25 A. Well, you have shown me various Page 177 Page 175 Fisher Fisher 1 1 2 clippings which say as much, and that's the when they will be auctioning their bonds. They do not provide a forward calendar that distinction I'm trying to draw, is if you 4 leak it to the market in advance, then you commits them to auctioning securities at particular dates. Whereas the United States don't surprise the market, but then you've 5 Treasury since the 1970s has committed itself 6 leaked it, and that would be a bad process in to a practice of regular and predictable 7 my view. 7 8 Q. One last question. Ms. Williams 8 auctions. was asking you about your regrets. 9 So that phrase refers to the 10 auction calendar. The announcement process Do you regret not having been more 10 11 forceful with Michelle Davis about 11 is in advance of those auctions to specify 12 the quantities that will be announced, that 12 distributing the decision to cancel the long 13 bond in the form of an internet announcement 13 will be auctioned on those specified dates. Q. So there is no policy goal within 14 without an embargo? 14 15 Treasury in your understanding of trying to 15 A. No because I think that she and I 16 had a very full discussion about the pros and 16 make policies themselves, as opposed to the 17 cons of that. I feel I informed her of my specific dates of auctions, regularly and 17 18 predictable? 18 feeling and she informed me of hers. And I 19 feel I have been involved enough in 19 MS. WILLIAMS: Objection. A. Well, policies change from one 20 government and public decision-making to know 20 administration to another. I think that it's 21 that you don't always get the outcome you 21 22 want, but if you got a chance to debate the 22 very important to recognize the difference 23 between creating a regular and predictable 23 pros and cons of something and made as good a 24 calendar of auctions, which allows investors 24 decision as the responsible person could, 25 to anticipate when they can acquire Treasury 25 which was Michelle in that case, then it's

money? 1

- A. Every day I would look at the, you know ---2
- talking about the corporate bond market, I 3
- mean, I could look at the portfolio. There 4
- was no rush to spend that money that day. I 5
- managed -- I used portfolio duration, which 6
- is a measure of the interest rate 7
- sensitivity as the prime position -- as the 8
- 9 prime input in the position of my portfolio,
- what the duration was. 10
- 11 Q. Based on what your most significant holdings
- 12
- 13 A. Right. I got that from a system,
- calculated. 14
- 15 Q. Okay. And when would you typically perform
- that sort of analysis? 16
- 17 A. First hour. Get ready for the day, and I
- had all my accounts. 18
- 19 Q. In determining how you might spend the money
- that was available to you on a given day, 20
- what else would you do to do an analysis? 21
- 22 A. You know, I'd get market color. I mean, I'd
- see if opportunities came up. You know, 23
- particular corporate issues that looked 24
- attractive, an idea from any one of my 25

Page 100

Page 101

- 1 A. Well, it was a trade that they were doing on
- the trading desk.
- 3 Q. When you say "we," who are you referring to?
- A. It was a trade that Steve Nothern, Rick
- Smith, Peter Vaream -- it was a general --5
- we were doing a Treasury trade, and it was 6
- 7 -- you know, it was a trade that I went
- along with the group and I bought 10 million 8
- 9 bonds.
- 10 Q. Do you know if David Kennedy was in on that
- transaction? 11
- 12 A. I believe he was.
- 13 Q. Do you know if Peter Vaream was in on that?
- 14 A. I believe Peter was out. If that was the
- case, we may have put some in his accounts. 15
- I think he was out that day. 16
- 17 Q. So as you sit here today, you think that
- Peter Vaream was out of the office that day? 18
- 19 A. Yeah, I'm not sure, but...
- 20 Q. Okay.
- 21 A. But I know the fact that Rick Smith, Dave
- Kennedy, Steve Nothern, I was there, Jim 22
- Calmas was there. 23
- 24 Q. Of those people that you just mentioned, who
- was involved in this purchase for Treasury 25

Page 99

- bonds that you described? 1
- 2 A. I think Steve, Rick, David and myself. I
- don't think Jim was.
- 4 Q. What was the total amount of the purchase?
- 5 A. Of the whole desk?
- 6 Q. Yes.
- 7 A. I believe it was 70 million.
- Q. Of that 70 million, you said you purchased
- 10 million?
- 10 A. That's correct.
- 11 Q. Do you know how much of that 70 million or
- remaining 60 million the others purchased? 12
- 13 A. Yeah. I think Steve bought 25, Dave Kennedy
- bought 25, Rick bought 10. Again, this is 14
- my recollection, and I bought 10. And I 15
- might have -- I'm thinking if -- I am not 16
- sure if I was thinking Peter's accounts or 17
- 18
- 19 Q. Would have been included in the 10 million?
- 20 A. Yeah.
- 21 Q. I see. Now, what led up to this group --
- 22 this was a group decision to purchase these?
- 23 A. Yeah.
- 24 Q. What led up to this decision to purchase
- 25 these bonds?

- specialists, mortgage idea, asset-backed
- 2 idea, Treasury idea, that I would evaluate.
- Q. When you said you'd get ideas from your 3 specialists, you are meaning whether it was 4
- Mr. Nothern or Vaream or Smith? 5
- A. Right. Right.

1

- Q. Okay. You said you'd look to get market 7
- color. What did you mean by that? 8
- A. Talk to the dealers. You know, what's going 9 on in the market? What's happening to, you 10
- know, corporate trends? What's happening to 11
- interest rates in general. Sort of general, 12
- you know, "How's the marketing opening? 13
- What's the tone for the day?" 14
- 15 O. Did there come a point in time on
- October 31st that you made a decision that 16
- you were going to spend some of the 17 \$15 million to buy some securities? 18
- 19 A. Yes.
- 20 Q. And what securities did you purchase?
- 21 A. Bought 10 million Treasury bonds.
- 22 Q. That's the 30-year bonds?
- 23 A. Correct.
- 24 Q. What led you to that decision to purchase
- those Treasury bonds? 25

an the

1 A. Well, there was discussion as to whether the

2 Treasury Department would eliminate -- you

- know, there was a lot of speculation about
- 4 what the Treasury Department would do with
- 5 the 30-year Treasury, whether they would,
- 6 you know, auction bonds this time or not.
- 7 And there was discussion -- Steve got up and
- 8 said that there was a discussion that they
- 9 might -- you know, that they might -- that
- someone thought that the 30-year Treasury
- bond might be eliminated from the auction.
- 12 Q. Did he say who that someone was that thought
- the Treasury would eliminate the 30-year
- 14 bond?
- 15 A. Yeah, I recall it was from Pete Davis.
- 16 Q. Can you tell me specifically what it is that
- 17 Steve Nothern mentioned about Pete Davis?
- 18 A. He said that he had -- Pete Davis told him
- that the Treasury was not going to have a
- 20 30-year bond auction in the refunding.
- 21 O. When did Steve Nothern make that statement?
- 22 A. I remember it around 9:30ish. I don't
- 23 remember exactly.
- 24 Q. I think you said "he got up." What did you
- 25 mean, "he got up"?

- 1 something.
- 2 Q. While you were seated at your desk and on
- the phone, did you see that other -- did you
- 4 notice that other people were standing?
- 5 A. Yeah.
- Q. And the people that you noticed were
- 7 standing, were whom?
- 8 A. If I remember, Steve and Rick.
- 9 Q. Steve Nothern and --
- 10 A. Right.
- 11 Q. -- and Rick Smith?
- 12 A. Correct.
- 13 Q. Two of the portfolio managers you work with?
- 14 A. That's correct.
- 15 Q. All right. And you saw them standing. Were
- they in a discussion with one other?
- 17 A. Steve was in his work station standing up
- and Rick was in his work station standing
- 19 up. The way we always -- they talked about
- 20 things all the time.
- 21 Q. And at that point, did you notice anybody
- 22 else standing?
- 23 A. Not that I can recall.
- 24 Q. Did you notice David Kennedy at all at this
- 25 point?

Page 103

Page 105

- 1 A. I was on the phone talking about a corporate
- 2 trade and Steve was standing up talking to
- Rick, he's in his station, and then Dave
- 4 afterwards, and they are talking about it
- 5 and they are starting to put a trade
- 6 together. And then I got attention, and
- 7 then said, you know, "Take me along. I will
- 8 take 10 million." I was focused on a
- 9 corporate -- something else, and it was a
- trade that the desk was doing, so take me
- 11 along.
- 12 Q. Now, you said that you were on the phone?
- 13 A. Yeah.
- 14 Q. Who were you on the phone with at the time?
- 15 A. I don't remember, but it was related to a
- 16 corporate trade. I don't remember whether I
- was getting information but I think I stood
- up, two people were up. I'm thinking,
- 19 "What's going on?" I'm still on the phone
- and talking, and then I overhear the buy,
- 21 and I said, "I will take 10 million."
- 22 Q. When you were on the phone, were you
- 23 standing or seated?
- 24 A. I was seated, and then I got up because I
- 25 realized other people were up and discussing

- 1 A. No.
- 2 Q. Was David Kennedy on the desk at that point?
- 3 A. I think so.
- 4 Q. Was he standing or seated?
- 5 A. I don't -- I'm guessing he was probably
- 6 seated, but I don't remember.
- 7 Q. Now, I thought you said when you were on the
- 8 phone you noticed some people standing and
- 9 then you stood up.
- 10 A. Yeah.
- 11 Q. What prompted you to stand up?
- 12 A. Well, it's like commotion. I mean,
- something is happening; something is going
- on. It's a natural instinct to see what's
- 15 going on.
- 16 Q. You said there was a commotion. What do you
- 17 mean, "There was a commotion"?
- 18 A. People were up, discussing about a trade,
- and I'm part of the team, and, you know, I,
- 20 like, want to know what's going on because
- 21 maybe I want to get involved. It was a --
- 22 happened many times a day. I mean...
- 23 Q. How did you -- you said they were discussing
- a trade. How did you know they were
- 25 discussing a trade?

Page 106 Page 108 1 A. Well, I guess they were standing up. I might be eliminating the 30-year Treasury could see that there was conversation --2 bond from the auction. there was John Cadogan, not specifically, 3 Q. When you heard that, were you still in your 3 there was some dialogue going on and John's work station or had you moved over to where 4 a trader, so something was happening. Steve Nothern --5 5 6 Q. Could you hear what they were saying? A. I was in my work station. 7 A. Not specifically. Q. All right. So did Steve Nothern make that O. All right. And what did you do? Let me statement? 9 A. Right. Yeah. withdraw that. 10 Q. So was he announcing it to you as well? 10 A. Right. 11 A. Yeah. He was talking -- talking about it 11 Q. At this point, you are on the phone, you see with Rick, I assume. I didn't hear what Nothern standing, you see Rick Smith 12 12 they were talking about, but that was the 13 13 standing --14 A. Yeah. And people saying what they are doing topic, topic du jour. 14 15 Q. But when Steve Nothern made this statement -- saying they are --15 MR. GOLDSTEIN: Just wait for 16 about Peter Davis -- if you go to 16 Mr. Rossetti to finish his question. Exhibit 3 --17 17 MR. ROSSETTI: Thanks. 18 A. Yeah. 18 19 Q. You are hearing that they are going to be 19 Q. -- you see station 240 is where Nothern sat? doing something and they are talking with 20 A. Right. 20 21 Q. And you sat at 265? John Cadogan; is that correct? 21 22 A. (No audible response.) 22 A. Correct. 23 Q. You got to verbalize your answer. 23 Q. What was the distance between Nothern's work 24 A. They are talking among themselves. station and your work station? 24 25 Q. Rick, Steve Nothern? 25 A. 25 feet. I don't know. Page 109 Page 107 1 A. Right. 1 Q. Okay. 2 Q. And John? 2 A. Not a lot. I mean, you could easily be 3 A. Correct. heard. 4 O. The trader? 4 Q. Right. But he'd have to be intending to 5 A. That's correct. speak to you --6 A. Right. Right. 6 Q. At that point, could you hear what they were 7 Q. -- in a louder voice? discussing among themselves? 7 8 A. Well, I knew they were buying Treasuries. 8 A. Right. 9 O. How did you know that? 9 Q. And that's what he did to tell you what --10 A. Because I could hear it. 10 A. Right. 11 Q. -- Pete Davis had told him? 11 Q. What did you hear? 12 A. By then, I was aware of the refunding 12 A. That's correct. announcement. At that point I was aware the 13 Q. All right. Was this before or after you had 13 Treasury market was up, so my senses were heard people purchasing bonds? 14 14 risen to the fact that there was information MR. SHOPE: Note my objection. 15 15 that had been -- that had apparently been 16 A. Could you repeat the question? 16 17 Q. I thought you had said that at some point released. 17 you heard Steve Nothern and Rick Smith 18 Q. Okay. So, specifically, what did you 18 hear -- you said there they were purchasing giving an order to Cadogan to purchase 19 19 Treasury bonds? bonds. Did I have that correct? 20 20 21 A. Right. 21 A. Right.

23

22 Q. What specifically did you hear at that

24 A. I heard that there would have been a call

and -- from Pete Davis that the Treasury

point?

23

24 A. Right.25 Q. -- did that come before or after you hearing

Nothern said about Peter Davis --

22 Q. All right. This statement that Steve

- Steve Nothern and --1
- 2 A. It was before.
- 3 Q. -- Rick's Smith --
- 4 A. Right.
- O. -- telling Cadogan they wanted to purchase
- bonds? 6
- 7 A. It was before.
- Q. So the first statement you heard was Nothern
- making this announcement about what he heard 9
- from Pete Davis? 10
- 11 A. Correct.
- 12 Q. At this point you are on the phone?
- 13 A. Right.
- 14 Q. All right. What's the -- after Nothern
- makes that statement, what's the next thing 15
- you observe? 16
- 17 A. At this point, I'm on the phone and I'm
- already aware that the Treasury market is 18
- 19 up.
- 20 Q. You are seeing some information on your --
- 21 A. I have a screen so I'm sort of like, oh, I'm
- on the phone. I'm thinking, "Something is 22
- going on," so... 23
- 24 Q. When you say "the Treasury market is going
- up," what do you mean by that? 25

- Cadogan, Steve Nothern and Rick Smith at 1
- 2 this point?
- 3 A. It's figuring out a number. It's collecting
- orders to get to how many did we want to
- buy, to -- so John can go buy them. 5
- 6 Q. Was there anybody who was taking the lead
- and trying to find out how much everybody 7 wanted? 8
- 9 A. I mean, not -- it seemed like Steve and Rick were putting it together. 10
- 11 Q. All right. And did there -- after you
- observed this interaction between Nothern, 12
- Cadogan and Rick Smith, what's the next 13
- thing you recall occurring? 14
- 15 A. John Cadogan executed, you know, the trade,
- bought 70 million Treasury bonds. 16
- 17 Q. So, by this point, you had heard whatever
- Nothern wanted to purchase, whatever Rick 18
- Smith wanted to purchase and whatever David 19
- Kennedy wanted to purchase? 20
- 21 A. Right.
- 22 Q. And you told them, "I wanted to purchase 10
- million"? 23
- 24 A. Right.
- 25 Q. How exactly did you tell them that "I wanted

Page 111

Page 113

Page 112

- 1 A. I have a screen that has actual quotes and
- 2 the 30-year Treasury bond is up. I don't
- know, three-quarters of a point. Something 3
- is happening. 4
- Q. All right. As you sit here today, do you
- know how much it was going up or it had gone 6
- 7
- 8 A. I think it was three-quarters of a point.
- 9 Q. After you see your screen and you see the --
- 10 A. Right.
- 11 Q. -- the bond going up, what's the next thing
- you recall happening? 12
- 13 A. Well, then they're standing up and doing
- something, and then I -- that -- the Pete 14
- Davis discussion, and then they are doing 15
- the trade, and I'm saying, you know, "I 16
- could use 10 million." 17
- 18 Q. So you are saying "they're standing up," you
- are referring to Steve Nothern --19
- 20 A. Steve Nothern --
- 21 Q. -- and Rick Smith?
- 22 A. And John Cadogan is taking instruction.
- 23 Q. Is John Cadogan standing as well?
- 24 A. I remember him sitting, but I don't know.
- 25 Q. What's the discussion that's going on among

- to purchase 10 million"?
- 2 A. I looked at John and said, "I will take 10."
- 3 Q. When you say, "I will take 10," you were
- intending for him to purchase for you
- 10 million Treasury bonds? 5
- 6 A. That's correct.
- Q. You see, we will get this working out at
- some point today. 8
 - After Mr. Nothern had made this
- statement about Peter Davis, did you engage 10
- 11 in any discussion with anybody else about
- what exactly Davis had said or get any 12
- clarification or anything like that? 13
- 14 A. No.

9

- 15 Q. Did you engage in any conversation -- after
- you heard this statement that Nothern said 16
- 17 about Davis, but before you asked Cadogan or
- anybody else to purchase 10 million, did you 18
- get involved in any other discussion with 19
 - anybody there about what was going on?
- 20
- 21 A. No.
- 22 Q. Prior to you indicating to Cadogan that you
- wanted to purchase the 10 million in bonds, 23
- 24 did you see anything on the news wires
- 25 indicating that the Treasury refunding

Page 116 Page 114 embargo? announcement had been released? 1 2 A. No. 2 A. No. 3 Q. Did he mention that Peter Davis had just 3 Q. Had you received any e-mails or any information from anybody in which they gotten out of a meeting? 4 indicated that the 30-year bond was going to 5 A. No. 5 Q. Did he mention -- did Steve Nothern say that be cancelled? 6 -- anything about Davis mentioning a press 7 A. No. 7 release was going to be issued? Q. So the only information you had that morning 8 that there may be a cancellation of the 9 A. No. 30-year bond was coming from Steve Nothern? 10 Q. Did Mr. Nothern mention that Peter Davis 10 said the Treasury Department was going to MR. SHOPE: Objection. 11 11 make an announcement at 10 a.m.? 12 A. Correct, but there had been speculation for 12 weeks about whether they would or not. I 13 A. No. 13 14 Q. Did Mr. Nothern mention anything about TIPS, mean, it was... 14 15 Q. And it had been speculation for --Treasury Inflation Protected Securities? 15 16 A. Wall Street Journal, right. 16 A. No. 17 Q. Did you make any mention of a buyback? 17 Q. But the speculation had been going on for a couple of years --18 A. No. 18 19 Q. Did Mr. Nothern make any statement about 19 A. Right. 20 Q. -- correct? And people thought because 20 five-year notes? 21 A. No. the ---21 22 Q. Did he mention -- did Steve Nothern mention 22 A. The surplus. 23 Q. -- surplus the U.S. government was running, that Peter Davis had mentioned the name 23 "Peter Fisher"? that they might cancel the 30-year bond? 24 24 25 A. No. 25 A. Right. order with Cadogan?

25 A. I don't remember.

1 A. Yes. Q. Does that refresh your memory as to anything 2

else that Steve Nothern stated about who 3

Peter Davis was? 4

A. Yes. I think it's a fair recollection of

the comments. 6

8

16

7

Q. And with your memory now refreshed, what 7

else is it that Nothern stated about Davis?

A. What it says in here, well-connected in

Washington, served on the committees, and 10 11

this is what I remember.

12 Q. Okay. After you placed the order with John

Cadogan, did you get any acknowledgment from

Cadogan that the trade had been placed and 14 15

executed?

MR. SHOPE: Objection to the form.

A. I don't remember specifically, but he 17 18

probably told us at what level he bought

them, at what price. 19

Q. How soon after you placed the order did you 20

get an acknowledgment from Nothern [sic] 21

that the trade had been placed? 22

MR. SHOPE: Objection.

24 A. Do you mean John Cadogan?

25 Q. John Cadogan, I'm sorry.

Page 75

MR. SHOPE: Note my objection.

A. I doubt much time passed. I don't remember

3 specifically.

Q. I withdraw that. Actually, there's nothing 4

to withdraw. 5

Are you familiar with a system at MFS 6

called the "fixed-income trading system"?

A. Yes.

Q. And can you tell me what that system was at

10 MFS?

11 A. It was an online portfolio management tool

where you could access your portfolios' 12

13 security holdings and you could -- it was

the instrument by which you traded. 14

15 Q. And who created that system?

16 A. I believe it was MFS-created internally.

17 Q. And, excuse me, in order to have a trade

executed, did you need to have information 18

19 put in this fixed-income trading system

before any action could be done on a trade? 20

21 A. In theory, you were supposed to enter the

trade through the FITS system. It would 22

then go to the traders and the traders would 23

see it and then execute the trade. 24

25 Q. How did it work in practice?

1 A. In practice, most often, that's the way it

worked, but it was not uncommon -- John

3 Cadogan sat directly across from me -- that

I would say, "John buy X and I'm putting it 4

in the system right now." 5

Q. When you made this order, you told Cadogan

Page 6 of 8

Page 76

to purchase 25 million bonds. At that 7

8 point, did you put the information into the

FITS system? 9

A. I don't remember putting it in the system 10

11 immediately.

12 Q. Okay. Did you do it sometime that day?

13 A. Yes.

14 Q. When was it that you put it in the system

15 that day?

16 A. I didn't remember until I saw a document

17 that it was sometime after 10 o'clock. Now,

part of why I didn't put it in was because 18

there was a portfolio manager not on the 19

20 desk, that was Peter Vaream. We -- after

placing our trades, we then kind of looked 21

around and said, "Peter is not here. Peter 22

23 would want some of the 30-year Treasury." I

had put in an order for 25, but then decided 24

25 to give Peter two. So eventually I only put

Page 77

1 in an order into the FITS system for \$23

2 million.

3 Q. At any point on October 31st did you have a

conversation with Peter Vaream about you 4

5 reserving two million of your 25 million

purchase for his accounts? 6

A. Yes. 7

Q. What did you and he discuss?

A. I don't remember the specifics. It was some 9

time later he returned to the desk and he 10

was made aware of the purchases. 11

12 Q. You have been recounting to us that Steve

Nothern had gotten up and made this 13

statement and there was some discussion and 14

you purchased bonds. Did you relay that to 15

16 Vaream?

17 A. I don't remember.

18 Q. The -- prior to October 31, 2001, had you

heard any information that the Treasury may 19

be cancelling the 30-year bond? 20

21 A. Yes.

22 Q. When did you hear that information?

23 A. This had been an ongoing story for 12 or 18

months, that it was financially feasible 24

that the Treasury would cancel or eliminate 25

eight, 10 ticks. 3

Q. And you said that this call came in 4 between 9:30 and 9:50? 5

A. Some time after 9:30. I don't know 6 exactly what time. 7

Q. Was it around 9:30?

A. I don't know exactly what time.

MS. WILLIAMS: I'd like to have

O. What else was discussed?

4 A. Apparently Treasury was going to shift to a monthly issuance of five years as opposed

to a quarterly issuance.

Q. And you agree that the conversation 7 took place around 9:30 a.m.? 8

A. Yes.

Q. Prior to receiving this call, what, if 10 11 anything, had you heard regarding Treasury's

12 possible cancellation of a 30-year bond on

October 31st? 13

A. Prior to October 31, 2001?

Q. No, no. On October 31st, prior to

16 receiving this call, what, if anything, had you

17 heard about the possible cancellation of the

18 bond, just on that day?

A. That morning?

20 Q. Yes.

A. Nothing that I recall.

Q. What did you say in response to the 22

23 broker's -- information that the broker gave you

during this call? 24

A. I don't recall.

Q. If I could refer you to page 15. And 3 on the second half of the page, do you see your 4 signature there, sir? 5

A. Yes. 6

10

Q. And it says, "I, Steven E. Nothern, 7 state under the penalty of perjury that the foregoing responses are true and correct." 9

Did I read that correctly?

A. Yes. 11

Q. Okay. On page five, I'm at the first 12

13 line, "Around 9:30 a.m. on October 31, 2001, I

14 had a telephone conversation with a bond broker

15 who informed me that there was information

16 circulating on the Chicago Board of Trade that the Treasury was going to cancel the issuance of

18 the 30-year bond and that Treasury was going to

shift to a monthly issuance of five-year bonds

20 rather than the quarterly issuance of five-year

21 bonds."

23

Did I read that correctly? 22

A. Yes.

Q. Does that refresh your recollection at 24 all of anything else that was discussed during 25

Q. What was your reaction to this 1 2 information?

A. It was twofold. One is here we go

again. We'd had a similar thing at the 4

August refunding.

And then it jogged my memory of what 6 had happened at the quarterly refunding, which there had been wide anticipation at that point 9 in time that the treasurer was going to announce 10 the cancellation of the 30-year Treasury bond.

Their arrangements that they were 12 making was that it just didn't make sense to continue issuing them.

So there was an expectation in 14 August that they were going to announce the cancellation. So I did remember that. 16

17 And I did remember also that the postmortem on -- because they didn't in fact 19 announce that in August, postmortem was that 20 they didn't done it because the fellow in charge 21 while nominated hadn't yet been confirmed, and

22 he might not yet have the -- I guess the sort of

23 official ability to stand before the cameras and

24 make that sort of an announcement, to the extent

What was your question? Cow could you

You're confusing me with your nots. A. I don't recall. 5 Q. When you say that a similar thing had 6 Q. Okay. Would you agree that you 6 7 happened at the August refunding, what do you frequently got calls from individuals with mean? rumors regarding what the market was going to 8 9 do? A. That there was a lot of talk about 9 10 whether they were going to do it or not do it in 10 A. No. I think it was extremely rare. Q. If I could refer you to Exhibit 2, 11 terms of whether they were going to cancel 11 12 issuance of 30 years or not do it. So there was 12 page 118. 13 a lot of speculation about that. MS. How did you become aware of the talks 22 22 THE VIDEOGRAPHER: Here begins surrounding the August refunding? 23 23 videotape number three in the deposition of A. It was very -- I don't recall 24 24 Steven Nothern. specifically. It was very widely talked about, 25 Page 171 Page 173 1 though. On the record, 2:49 p.m. 1 2 BY MS. WILLIAMS: Q. Line 19 through page 118, line 8, and (Record read) 9 9 10 let me know when you finished. 10 MR. SHOPE: Okay. Thank you. (Pause) 11 BY MS. WILLIAMS: 11 Q. In the course of your work at MFS, how 12 A. Okay. 12 Q. I wanted to refer you to page 118, and 13 often would you receive calls of this nature, 13 14 I'm reading line four. "It's just the nature of 14 meaning the call that you got from the broker on 15 business. We have people calling us frequently 15 the morning of October 31st --16 pounding the table that they're sure XYZ is MR. THEODOROU: Objection. 16 going to happen, or they're sure you should do 17 Q. -- regarding rumors about market 17 18 activity? 18 XYZ." 19 MR. THEODOROU: Objection. 19 And I wanted to know what you meant by 20 that statement. A. Rarely. 20 A. We have people -- well, when I worked 21 Q. Do you not agree that you frequently 21 got calls from individuals with rumors regarding 22 in the business there were people calling 23 frequently, our insurer, the curve was going to what the market was going to do? 23 24 flatten, which is jargon to say that the MR. THEODOROU: Objection. 24

25 Treasury market yields with change in a certain

1 manner, or that the Fed was at the next meeting going to tighten 50 basis points, or that the 3 next CPI number was going to be .8.

You know, so we had people calling in 4 all the time who thought that, you know, they 6 had an analysis of how the market might react to things that they were certain were going to occur in their analysis, in their opinion certain things were going to happen, and they 10 were darn sure of it.

At the end of the day, I think I say 12 that here, at the end of the day, we as 13 portfolio managers have to make our own analysis 14 of what we think, you know, the investment 15 environment is going to be going forward, and we 16 take the responsibility for structuring the portfolios appropriately.

You can't rely on other people's 18 analysis. It's useful input. Often they're 19 20 darn sure, but they can also be darn wrong. And 21 if it's wrong, it's your responsibility as a 22 portfolio manager.

I don't blame them, but they call a 23 24 lot confident that such-and-such is going to 25 happen and, you know, you should do

Page 176

1 work. I had several portfolios I was working to 2 restructure. I was doing trades, primarily

3 selling intermediate maturity or short maturity

4 notes and bonds in exchange for longer 5 maturities.

Q. Okay. You mentioned earlier you 6 7 received a voicemail from Peter Davis. Were you doing this portfolio work prior to receiving that voicemail?

10 A. Yes.

Q. Did you sell any intermediate 11 12 securities that day prior to receiving the voicemail from Mr. Davis?

A. Yes.

14

18

19

20

21

25

15 Q. Did you purchase any longer term 16 securities that day prior to receiving the 17 voicemail from Mr. Davis?

A. No.

Q. What do you recall happening next? MR. SHOPE: Next after what? MS. WILLIAMS: He said that after 22 the call with the broker, he did some portfolio

work. I want to know what he recalls doing 24 thereafter.

A. At some point I was interrupted by

Page 175

Page 177

1 such-and-such, you know, as a consequence of it.

Q. When you received this call from the 2 3 broker saying that -- relaying the rumor on the floor of the Chicago Board of Trade, you said

that one reaction you had was that this was

similar to information you heard surrounding the 6 7

August refunding conference; is that right? A. Yes.

Q. What, if anything, in your --10 triggered in your mind after you received the 11 call from the broker on October 31st as to 12 whether Treasury was going to make a refunding announcement that day?

A. It didn't -- I didn't have any thought 15 of a refunding -- quarterly refunding at that point in time. 16

Q. How long did the call with the broker 17 18 last?

19 A. I don't remember. It was brief.

Q. By "brief," can you give me a 20 21 ballpark?

A. Less than two, three minutes.

Q. What happened -- what did you do after 24 you had this call with the broker?

A. As I recall, I was doing portfolio 25

1 Kathy Graham who was our receptionist. She had

an issue related to a laptop that was going to

be picked up for servicing by Dell.

Q. How were you interrupted by Ms. Graham?

6 A. She came to my desk and presented me the problem that we were having, and Dell was to 7 come pick up this computer for servicing, and

she explained to me the complexity. 9

After 9/11, vendors -- pick up 10 11 companies were no longer allowed up into the 12 building, so the laptop would have to be brought down to, I guess, a receiving area of the lobby. 13

Q. Okay. How long was this conversation 14 with Miss Graham? 15

16 A. I don't remember. I'd say it was 17 fairly brief, a few minutes.

Q. Besides you and Ms. Graham, was there 18 19 anyone else involved in this conversation?

A. No.

20

Q. And just to clarify, were you sitting 21 22 at your station on the high grade trading desk 23

when you had this conversation with Ms. Graham?

A. Yes. 24

Q. What happened after you had this 25

2 willing to sell bonds at par 21.

- It might only be one million, it 4 might be 10 million, they might have 50 5 million offered there.
- Q. So is it safe to say the difference 7 the bid and the offer is the difference 8 between the price at which someone in the 9 market is going to buy a bond and the price 10 at which someone in the market is going to 11 sell the bond?
- 12 A. Yes.
- 13 Q. You had mentioned par in your 14 answer.
- 15 Could you explain what par is?
- A. Par, basically, is a hundred. And 16 17 that's basically when the market, the present 18 yield or interest rate in the marketplace
- 19 coincides with the coupon --
- 20 Q. Or interest rate?
- 21 A. -- on the underlying -- or the
- 22 interest rate on the underlying whole bond.
- So for instance, in
- 24 February of 2001 they issued this 5 and 25 three-eighths at Feb 31 as a 30-year bond.

G. Criqui

Q. Mr. Toone asked you to go through 3 the process that you generally went through 4 at Merrill Lynch, when you executed a trade 5 with a customer in Boston like MFS. I want 6 to walk through what actually occurred on 7 October 31st, 2001, regarding this trade of 8 65 par value of 30-year bonds.

- Could you tell me what you recall 9 10 on that morning?
- A. Certainly, certainly. I'll refrain 12 from using the actual time at which it took 13 place, 'cause five years later I can't really 14 remember.
- 15 But at some point before the 16 expected 10 a.m. refunding announcement, 17 anywhere from 15 to 20 minutes before that, 18 Greg Saint-Pierre used the government's 19 squawk while he's in Boston, I'm in Jersey 20 City on a temporary basis. He used the 21 government squawk, Galen, pick up Boston for 22 a trade.
- 23 I proceeded to press the Boston 24 direct, hey, Greg. Hey, Galen, offer 65 25 million long bonds to MFS for regular

Page 183

1 G. Criqui

2 At the time of this trade, the 3 October -- by October of '01, eight, 4 nine months later, it had rallied roughly 18, 5 19 basis points. So the bond went from 100 6 par to 102, almost 103, 102.24 plus, that's 7 close to 103. That reflects the fact that 8 the market has rallied.

- So basically par is just when the 10 present yield, present interest rate on the 11 bond is the same as the coupon, the 12 underlying interest rate on the bond when it 13 was originally issued.
- Q. So when you say par in 20, is that 15 120 ticks --
- A. Thirty -- yes, that's correct. 16
- 17 Q. Which would be 120.32.
- A. 120 thirty-secondths. Not a
- 19 hundred -- it's a little less than 101.
- 20 Q. Right, 132 thirty-secondths --
- A. Would be 101. 21
- 22 Q. Would be 101, okay.
- 23 Sorry. I know that this is very
- 24 basic.
- 25 A. No, I don't even know the answers.

G. Criqui

2 settlement.

And I can't exactly recall where 4 the bond market, where the bond was in the 5 broker screens at the time, where the bid and 6 offer was, but it was probably pretty close 7 to where I did the trade. So anyway, let's 8 say there were 102.23, 102.24, which is 9 probably accurate, but I offered him at 10 102.24 plus, a plus concession for me, 11 plus --

Page 185

- Q. A plus is --12
- 13 A. A half a tick.
- 14 Q. -- a half of a thirty-secondth.
- 15 A. Yes, one 64th.
- Q. Great.
- 17 A. I offered a 24 plus, which was 18 fair, market was pretty volatile at the time
- 19 all that September 11th, and I offered him
- 20 there. Greg reflects that to the customer,
- 21 and within a second or two Greg comes back to
- 22 me, you're done, customer accepts. I go
- 23 okay, you're done, too, okay, fine. Trade's
- 24 done. Like millions of trades I've done 25 before.

12

14 yeah. I have to do that at some point, but 15 it's not like I have to do it immediately. 16 It's not like that slate gets done the second 17 we verbally commit to this trade with the 18 customer.

19 Q. Okay.

20 A. So I don't know exactly when I 21 slated it with regard to this trade. It was 22 probably pretty soon thereafter, but not 23 immediately.

But what I proceeded to do then was 25 try to get some bonds back, and I did; I got

16 accurately, but most likely not. I usually 17 just don't do that. I guess I'm not that 18 talented, where I can do both at the same 19 time. But I would probably -- I'm not on the 20 phone with Greg for very long, and I don't 21 know if the customer is going to say done 22 either. Offer is 65 bonds, 102.24 plus, 23 done, okay, then, then you're off the phone. So if I maybe started to slate it 25 while at the end of the phone call, sure, but

- 1 Q. So a host name corresponds to a computer, an IP address? 2
- 3 A. Exactly. Right. So it was the IP
- address that was in the access control list, but 4
- 5 the computer can look one up and find the other.
- It knows which belongs to which.
- 7 Q. And would the host name be unique to a
- specific computer at Treasury? 8
- 9 A. Not necessarily. They could have gone
- through a proxy. But it would definitely be 10
- 11 coming through the Treasury gateway.
- Q. I want to move down to the next entry 12
- here: "Here are the CMS push logs for USTPRESS" 13
- and then I see a clump of information. What is
- all that? 15
- 16 A. That would be the logs and it shows the
- logs that this user or that for this web site. 17
- It shows when files were updated. They happen in 18
- pairs, each update sequence. There's an update 19
- 20 collection and then do update. That's because a
- number of things can happen, happen in a push and 21
- it can take -- it can take several seconds or in

1 the date, time, size of those files. And CMS

Page 80

Page 81

- decides which files it's going to copy over and
- then it does the copy. 3
- Q. Does the program do this automatically 4
- when the person clicks whatever they need to do 5
- to say push?
- 7 A. Clicks the button; right.
- Q. What is this fourth entry here, the 8
- 9 9:43:28? What does that signify?
- 10 A. That would be when the process was
- 11 completed. Or when that file was actually moved.
- Q. At what time would someone from the 12
- public who logs onto the Treasury production 13
- 14 server via the Internet be able to view PO749?
- MR. TOONE: Objection. 15
- THE WITNESS: 9:43 and 28 seconds. 16
- 17 BY MS. WILLIAMS:
- Q. And why do you say that? 18
- A. Because this log indicates that that's 19
- 20 when the CMS system was complete with its
- transfer, which would mean that the file was then 21
- on the production server.

Page 79

- Q. Would it have been possible at 9:43 and 1
 - 23 seconds to view the information on the
 - production server? 3
 - 4 A. No.
 - 5 Q. Why not?
 - A. The process was just starting. The 6
 - 7 file wouldn't have been copied yet. And those
 - 8 other things had to happen first.
 - 9 Q. If you could go down below the copy --
 - well, first, this -- these entries from the log,
 - which server would those have come from?
 - 12 A. I would have looked for them myself on

 - the staging server. That's where the interface
 - was for the customers to view these logs. 14
 - 15 Was it also available on the production Q.
 - 16 server?
 - 17 A. It may have been. I personally don't
 - 18 know.
 - Q. Okay. Below this information with the 19
 - CMS push logs, Mr. Harris writes some other 20
 - information interpreting the logs. Do you see 21
 - 22 that?

- some cases even minutes to do a push because the
- system has to compare which files are on the two 2
- 3 systems and compare information about those
- files. 4
- 5 Q. So here which, if any, of these push
- logs relate to this particular file, PO749? 6
- 7 A. The second set. So starting with the
- 8 third entry, USTPRESS, that's the user name of
- 9 the web site. And then 9:43 and 23 seconds is
- the beginning of the process. And then 9:43 and 10
- 28 seconds is the end of the process. 11
- 12 Q. When you say the beginning of the
- process and that started at 9:43 and 23 seconds, 13
- what do you mean? 14
- A. Of the update process. I think I 15
- referred before the user clicks a button and says
- I want to push these documents to production. 17
- And then it does the -- well, first of all it has
- to get the Kerberos ticket and the two servers
- have to open up that encrypted line of
- communication. And then there is a comparison of
 - which files are on each of the two servers and

6

Page 82

- 1 A. Uh-huh.
- 2 Q. Is there anything in that that you
- 3 disagree with?
- 4 A. No, not at all. This is he's pulled
- 5 out, you know, just copied bits and pieces of
- 6 it. What -- what looks odd is that this
- 7 101103107 is -- computers have a different way of
- 8 keeping time. They don't use month, day, year.

- 10 It is like a number of seconds past some start
- 11 date. So he's converted this numeric set of
- 12 strange numbers into the actual year, month, and
- 13 date that they convert to.
- Q. Was it possible for someone to type in
- 15 WWW.TREAS.GOV and connect to Treasury's staging
- 16 server?
- 17 A. No.
- 18 Q. Why not?
- A. Because that entry would have only been
- 20 made for the production system.
- Q. Were there any other WWW. type
- 22 addresses that connected to the production

1 O IIIDTT 4: 1-14 -------

- 1 Q. UUNET didn't create one?
- 2 A. Right.
- 3 Q. So just to clarify, an IP address like
- 4 Treasury's production server's IP address could

- 5 have multiple domain names --
 - A. Uh-huh.
- 7 Q. -- that pointed to it?
- 8 A. Right.
- 9 Q. Are you familiar with the term network
- 10 time protocol?
- 11 A. Yes.
- 12 Q. What is it?
- A. It's a standard throughout the
- 14 Internet. It's a method of synchronizing clocks
- 15 that's considered very robust and redundant, so
- 16 that no one is depending on a single clock but on
- 17 a network of clocks going back to very
- 18 authoritative sources.
- Q. When you say it's a standard throughout
- 20 the Internet, what do you mean?
- A. It's common, accepted practice that the
- 22 official clocks from U.S. Naval Observatory or

- 2 A. Yes. The WWW.USTREAS.GOV and
- 3 WWW.TREASURY.GOV.
- 4 Q. And would all of those connect to the
- 5 same IP address on the production server?
- 6 A. Right. There would have been multiple
- 7 domain name entries, all with the same IP
- 8 address.
- 9 Q. What is a domain name?
- 10 A. Domain name is that host's name. It
- 11 refers to the DNS, domain name system, which is
- 12 another protocol of how the Internet works. And
- 13 there are servers, databases around the world
- 14 that match up domain names with IP addresses.
- 15 And it's the domain name that you're going to
- 16 write in your web browser, because people
- 17 wouldn't be expected to know what the IP
- 18 addresses are. They're a little too confusing.
- 19 Q. Do you know if Treasury's staging
- 20 server had a domain name in 2001?
- A. No, I don't know. We did not create
- 22 one for that.

1 the National Institute of Standards and

- 2 Technology distribute their time via NTP. And it
- 3 syncs up with the universal coordinated time
- 4 worldwide. So it's universally accepted.
- 5 Q. Did UUNET have an NTP protocol in place
- 6 for its customer servers?
- 7 A. Yes, we did. That was a standard
- 8 package that was installed on all of our customer
- 9 boxes.
- Q. Was that true in the fall of 2001?
- 11 A. Yes, it was.
- Q. Did UUNET have an NTP protocol in place
- 13 for the Treasury servers that it maintained?
- 14 A. Yes.
- Q. Could you explain how the NTP --
- 16 actually, before you do that, let me mark this

Memorandum of Activity concerning the Treasury Office of Inspector General's Interview of Jill Cetina (November 7, 2001)

MEMORANDUM OF ACTIVITY

| Type of Activity: X Personal Interview Telephone Contact Records Review Other (Describe): | Case Number:
2002-0104
Date:
November 7, 2001
Time:
4:30 p.m. | Conducted by (Name, Title, and Signature): Michael Knorr, Investigator Mehal C Thon |
|--|--|--|
| Subject of Activity: | | Location of Activity: |
| Jill Cetina International Economist Office of Foreign Exchange Operations Department of the Treasury Washington DC | | Department of the Treasury Office of General Counsel 1500 Pennsylvania Avenue, NW Washington, DC |

On the above date and time, the above listed subject was interviewed by attorneys Andrew Sporkin (202/942-4800) and Rosemary Filou (202/942-4768) of the Division of Enforcement, United States Securities and Exchange Commission (SEC) in coordination with Treasury, Office of General Counsel and the Office of Inspector General (OIG). Interviews of Treasury employees were conducted because of an allegation that someone may have prematurely released market sensitive information about the government's decision to suspend issuance of the Treasury 30-year bond, thus affecting trading activities in government securities.

The government's decision to suspend issuance of the 30-year bond was announced by Peter R. Fisher, Department of the Treasury, Under Secretary for Domestic Finance, during the quarterly funding meeting press conference held at Treasury between 9:00 a.m. and 9:25 a.m. on October 31, 2001. announcement was embargoed for release until 10:00 a.m. Treasury, however, prematurely posted Fisher's statement on their Web site, where it appeared at 9:43 a.m.

Jill Cetina stated she has worked as an international economist for Treasury for the past four years. She provides market analysis to Treasury through contacts with bond traders and brokerage market strategists. She said on October 31, 2001, she was on duty at 5:30 a.m. working the "market room." She said she became aware of the decision to suspend sales of the 30-year bond approximately 30 minutes prior to the official announcement.

MEMORANDUM OF ACTIVITY

Cetina was asked if she had received any earlier information of the elimination of the 30-year bond. She said she had heard speculation, on the part of bond market strategists, that it might be eliminated. Specifically, she said, a week or two prior to the announcement, she spoke with Drew Matus, a market strategist for Lehman Brothers Inc. in New York. She said that Matus predicted that Treasury would eliminate the 30-year bond. She thought he was "going out on a limb with that type of speculation."

Cetina said she was monitoring the bond market at the time the announcement on the 30-year bond was made. She said she was aware of the early Web site posting. She said she first noticed price increases on the long bond at 9:35 a.m. She said at 10:00 a.m., the time of the official announcement, there was a "big rally" in the bond price.

Cetina said when she first heard of the elimination of the 30-year bond, 30 minutes prior to the announcement, she was aware it was market sensitive information. She said she was aware of the embargo and added that she spoke to no one between 9:00 a.m. and 10:00 a.m. on October 31, concerning the suspension of sales of the 30-year bond.

A. I would guess it would had to have been at 16 least about 10:45 or 10:50. I mean 9:45 to 9:50. 17

And you're basing that on what?

A. I'm basing it on the fact that I walked 19

back from the Treasury Department, got into any 20

office, I think I as I mentioned I talked to 21

18

Mr. Muolo for at least a minute or something. I sat

down and tried to write something first, and it just 23

didn't have much pizzazz to it. I went over and 24

25 looked at the TV, CNBC. And then I put -- I figured

coming in at the back? 16

A. I just don't remember sitting down.

But, I mean -- well, let me put it this

way, would it have been your preference to sit if 19

there had been an open chair that was readily 20

accessible? 21

17

18

MR. ROSSETTI: Objection. 22

THE WITNESS: I don't know. Usually I do 23

sit down at press conferences. 24
